STS-130

OV-105

0414 EST February 8, 2010

Last Scheduled Night Launch

- Guests look on from the terrace of Operations Support Building II as space shuttle Endeavour launches from pad 39A on the STS-130 mission early Monday, Feb. 8, 2010, at Kennedy Space Center in Cape Canaveral, Fla. Endeavour and its crew will deliver to the International Space Station a third connecting module, the Italian-built Tranquility node and the seven-windowed cupola, which will be used as a control room for robotics. The mission will feature three spacewalks. Photo Credit: (NASA/Paul E. Alers)
